Dear Donna,

RE: ARTICLE, AUSTRALIAN SAFETY NEWS, MARCH 1994

I am forwarding a letter from Peter Hobday enclosing two articles, which may be of some interest. The second article entitled "Courts ~~Send Out Strong Signals On~~ Passive Smoking" is arguably misleading in that it suggests the Full Court made findings concerning the alleged risks of ETS. Perhaps this warrants a response from the Tobacco Institute.

Best regards,

for GREGORY L. FOWLER

Any news on a response?
